

X-marking, Day 4

Kai von Fintel

CreteLing 2022: July 18–29

<https://kvf.me/x>

Where we are

A near consensus: widening

Stalnaker 1975

The idea

Anderson-type examples

modus tollens

Stating that there is widening

X = past

Moving to the past widens the domain

Some issues

**These don't seem to mean the same
thing**

Next

We will look at X-marking outside conditionals to find more clues about what X might mean.
